

Biography

Tasdik Eko Pramono

Tasdik is a highly accomplished individual with a Master's degree in Information Technology specializing in Chief Information Officer (CIO) from Bandung Institute of Technology in 2014. He obtained this degree through the Domestic Scholarship Program of the Ministry of Communication and Information Technology of Indonesia, with the support of the National Archives of the Republic of Indonesia (ANRI). Tasdik's master's thesis focused on the design of technical policies for implementing electronic document authentication using digital forensic analysis, under the guidance of Ir. Budi Rahardjo, M.Sc., P.hD.

Upon his return from the scholarship program, Tasdik was invited to serve as a Professional Lecturer in the field of Office Administration at the Vocational Program of the University of Indonesia. He has been actively teaching in this role since 2015. In addition to his teaching responsibilities, Tasdik also contributes his expertise to the Digitalent Scholarship Program of the Ministry of Communication and Information Technology. He specifically teaches in the Government Transformation Academy, specializing in the training module of Business Process Engineer.

Tasdik's educational achievements, combined with his teaching experience and involvement in government initiatives, demonstrate his commitment to the field of information technology and his desire to contribute to the advancement of digital transformation in Indonesia.
